Innovium lists on Frankfurt Stock Exchange

Toronto ... Innovium Capital Corp. ("Innovium") reports that its shares have been listed for trading on the Frankfurt Stock Exchange ("Frankfurt"), effective the start of trading today. Innovium's trading symbol on Frankfurt is IH7; its ISIN (International Stock Identification Number) is CA45768W1068; and its WKN (German Security Code) is A0CAJ8. It is hoped that the Frankfurt listing will facilitate better access to international capital markets and will assist in fueling Innovium's future growth.

Innovium invests in innovative opportunities and benefits from an ongoing income stream from past agri-divestitures. Its venture investment portfolio is focused upon Seed Media Group, LLC, an emerging science media and communications company that develops original science content, including www.scienceblogs.com. The rapid growth of the digital media "space" is providing lucrative opportunities. This coupled with Innovium's constructive relationship with Seed Media Group will likely become an area of increased investment concentration.

Other investments include CablesEdge Software, which has developed Voice on the Go, the simplest, and most accessible, way for mobile users to access desktop information with the fewest keyclicks from any mobile device; First Person Plural, an interactive marketing and adver gaming company; and RxRite, a developer of point-of-care e-Prescribing solutions providing physicians, pharmacies, payers and Pharmacy Benefit Managers with the ability to communicate effectively for the safe and secure creation, transmission, and processing of electronic prescriptions.

Innovium Capital trades under the symbol ***IN*** on the TSX Venture Exchange and ***IH7*** on the Frankfurt Stock Exchange.
