### **Innovium grants incentive stock options**

**Toronto** ... Innovium Capital Corp. ("Innovium") reports that 1,960,000 stock options have been granted, of which 1,300,000 were granted to Officers and Directors. The options were granted at \$0.22 per share and are exercisable for a period of 5 years.

Innovium invests in innovative opportunities and benefits from an ongoing income stream from past agri-divestitures. Its venture investment portfolio is focused upon Seed Media Group, LLC, an emerging science media and communications company that develops original science content, including [www.scienceblogs.com](http://www.scienceblogs.com). The rapid growth of the digital media "space" is providing lucrative opportunities. This coupled with Innovium's constructive relationship with Seed Media Group will likely become an area of increased investment concentration.

Other investments include Voice on the Go Inc., which has developed Voice on the Go™, the simplest, and most accessible, way for mobile users to access desktop information with the fewest keyclicks from any mobile device; First Person Plural, an interactive marketing and advergaming company; and RxRite, a developer of point-of-care e-Prescribing solutions providing physicians, pharmacies, payers and Pharmacy Benefit Managers with the ability to communicate effectively for the safe and secure creation, transmission, and processing of electronic prescriptions.

Innovium Capital trades under the symbol ***IN*** on the TSX Venture Exchange ("TSX - V") and ***IH7*** on the Frankfurt Stock Exchange ("FWB").
